

# A DELICIOUS TREAT THAT SATISFIES YOUR APPETITE?

## Absochocolutely!

Controlling your  
appetite never  
tasted so good!

### FEELING GUILTY OVER THE IRRESISTIBLE URGE TO SAVOR YOUR FAVORITE TREAT?

Chocolate is no longer forbidden! With sinfully delicious **ChocoLeans™**, the first-ever satiety chocolates, you'll feel satisfied and full, thanks to a revolutionary trio of natural and effective ingredients.

**HOODIA GORDONII,  
CHA DE BUGRE, AND  
CARALLUMA FIMBRIATA**

combine for a delicious and powerful treat that not only satisfies your appetite but also boosts your energy, making it even easier for you to maintain your target weight.

**HOODIA GORDONII** grows naturally in the African Kalahari Desert, **CARALLUMA FIMBRIATA** grows in India, and **CHA DE BUGRE** is native to Brazil. All three natural ingredients are widely recognized by locals, who have used them for centuries to suppress appetites and lose weight.

In clinical trials, participants taking **Slimaluma™**, a patented extract from **CARALLUMA FIMBRIATA**, actually gained lean muscle mass, burned more fat, and reported feeling more energetic. Calling Caralluma Fimbriata, a "superstar of the weight-loss firmament," Dr. Perricone says that "Caralluma not only inhibits fat synthesis but also increases the burning of fat and has also been clinically demonstrated to suppress appetite and stop hunger pangs."

Dr. Nicholas Perricone, *7 Secrets to Beauty, Health, and Longevity*

**CHA DE BUGRE** products are found in Brazilian pharmacies, stores, restaurants and food stands. Cha de Bugre is commonly used as a weight loss product, which is popular as an appetite suppressant, and believed to help prevent or reduce fatty deposits and cellulite.

**GOJI BERRIES** grow in remote areas of Tibet, Inner Mongolia, and China. Goji Berries are known to maintain a healthy immune system, improve eye conditions, support healthy liver functions, and maintain healthy blood pressure and blood sugar. Goji have been traditionally regarded as longevity, strength building, and sexual potency food.
